

AI-powered RCM software evaluation checklist

During your search for an AI-powered RCM software, approach each vendor demo and internal discussion with the mindset that the right solution must optimize and improve your current operations.

Consider these eight categories:

- ✓ Workflow fit
- ✓ AI capabilities
- ✓ Denial prevention
- ✓ Prior authorization and VOB
- ✓ EMR/EHR and RCM integration
- ✓ Reporting and ROI
- ✓ Compliance and governance
- ✓ Implementation, support, and scalability
